Wish you had a little more space at the back of your van, but feel exposed with the barn doors open?

Wouldn't it be great to have:

- protection from the hot sun or pouring rain?
- extra space to stretch out outside the van?
- privacy for an outdoor shower?
- a place to change out of dirty clothes?

Introducing the canopy that adventures are made of ...

Designed for the Mercedes Sprinter Van & its passengers.

150+ happy customers

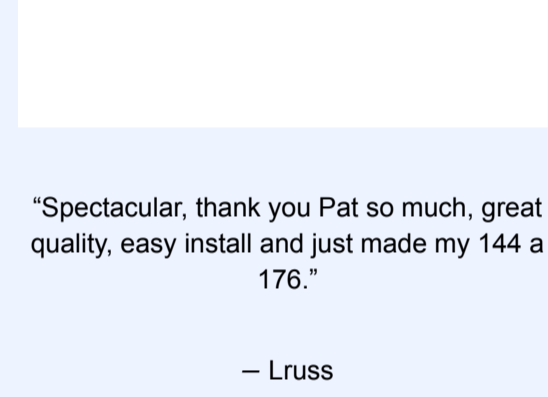

5 years of design refinements

100% exterior coverage

"The rear door cover provides the perfect privacy to shower off outside and keep the rest of the van clean and dry. We absolutely love it. I would recommend it to anyone."

How Precious Is Your Indoor Space?

The largest Mercedes Sprinter van, 170-inch wheelbase with extended length, has 116 square feet of floor space from gas pedal to rear doors before any insulation or panelling are added. For a \$50,000 van that is more than \$400 per square foot. My friend's custom-built van is a very precious \$1,600 per square foot. When you can't upgrade to a longer van, utilizing your outside space is the next best option. The Hangout will add more than 40 square feet of covered space to the back of your van with the awning extended, at a modest \$13 per square foot.
